NOTICE OF METER REPLACEMENT PROJECT

Beginning October 2025 we will be replacing approximately 8,000 water meters. Affected customers will receive letters, on our letterhead, requesting that they make an appointment for the replacement.

All appointments will go through our contractor, VEPO Metering. VEPO Metering will also be performing all labor involved in the replacement of meters. All VEPO Metering employees will have company ID, clearly marked uniforms, marked vehicles, and have completed background checks. Do not let anyone into your home that does not fit these criteria.

Please call our office with any questions at (732) 363-4422, or email us at info@lakewoodmua.com
